ANIMAL ID # 286560

BUDDY

Please Give me a forever home....

SHEPARD/CHOW MIX
MALE, 6YRS OLD.

Buddy is an awesome animal. Not only is he big and beautiful, he has such a sweet, loving laid back disposition. He behaves well with cats and with people, he also gets along well with other dogs and dislikes confrontation. He is very quiet to live with ... it was about 4 days before I heard the first bark out of him: a deep "woof."

When Buddy came to me he had a cold, was underweight and heartworm positive. He is being treated for the heartworm now and completely over the sniffles. As he is returning to full health, his playful personality has begun to emerge. He is bouncy and fun and loves to play fetch and toss his toys in the air. He loves to go for a walk or a jog every day.

His former owner recommended no small children, but I believe that is due to his size alone. Because he is big and heavy and sometimes not aware of his own strength, not because of any personality or emotional issue.

Buddy is truly a gentle giant. Please reply to saccdogs@bellsouth.net to meet him.
