# SUNSHINE

Please Give me a forever home....

Sunshine is great with children of all ages as well as adults she is energetic playful and very affectionate she doesn't bark at all she doesn't bite the only thing that you have to worry about is getting licked to death. She is house broken you can let her out in a yard but she prefers walks in fact I walk her about 6 miles a day to tire her out she loves to run she's very loyal will come when called and she loves being petted and having her belly rubbed she doesn't really like dog toys but she loves to play with other dogs she's very social and she doesn't like cats much but that's only because they don't really like her, she loves to chase them though and if the cat doesn't hiss at her I've found all she wants to do is sniff it and check it out she can suffer from separation anxiety at least she did in the beginning of her stay with me I've found she hates being confined in a kennel but she does ok I do not give her a dog bed or anything else to lay on while she's in the kennel because she has a tendency to shred them and while she does not eat shoes she has a slight thing for socks and she may nibble holes in some of yours so be careful where you put them other than that she's an all around great dog I've never met a dog so loving and caring and nurturing if you have a little boy or girl they wouldn't be able to ask for a better friend.
