SILAS

Please Give me a forever home....

The shelter called me Rascal, but my foster Mom calls me Silas, as she says the name Rascal sounds like a handful and I am soooo not.

Silas is the happiest dog in the world who loves nothing more than playing fetch or chewing on a bone, he gets along great with the other 2 dogs, and because he has a ton of energy he would be best with active dogs of his own size.

He is curious about the cat but leaves her alone, especially after she swats him.

He is house trained and crate trained, although he does not particularly like to be in his crate, and loves all the neighborhood kids.

Silas is a joy to have in our home he is smart willing to learn and loves to please

Additional information about Silas can be obtained from the South Animal Care Center.
